PROFILE

Data Science postgraduate with strong skills in Python, Machine Learning, Data Analysis, SQL, and Web Development. Experienced through AI/ML and Web Development internships in building predictive models, analyzing data, and developing responsive web applications. Eager to apply analytical and programming skills in Data Science, Machine Learning, or Software Development roles.

EDUCATION

M.Sc. Data Science

Holy Cross College (Autonomous)

2025 - 2027

77.3%

B.Sc. Computer Science

Cauvery College for Women
(Autonomous)

2022 - 2025

79.19%

EXPERIENCE

AI & ML Intern

FrontierWox Tech Private Limited, Trichy

May 2026 - Aug 2026

- ▶ Worked on real-time AI/ML projects involving data preprocessing, model training, and evaluation.
- ▶ Applied machine learning techniques to practical data-driven solutions using Python and Scikit-learn.

AI & ML Intern

Infypro, Trichy

Nov 2025 - Dec 2025

- ▶ Learned and applied core AI concepts and machine learning algorithms.
- ▶ Built ML-based applications and improved data analysis and problem-solving skills.

Web Development Intern

E Soft IT Solution, Trichy

Nov 2023 – Dec 2023

- ▶ Gained practical experience in web technologies including PHP, MySQL, and WAMP Server.
- ▶ Assisted in developing and maintaining web applications.

PROJECTS

Student Profile Application

PHP · MySQL · WAMP Server

- ▶ Developed a web-based application to manage student information with Admin, Student, and Faculty modules.
- ▶ Implemented database management with search and filter features; reduced manual record-keeping significantly.

CERTIFICATIONS & ACHIEVEMENTS

- ♦ AICTE ATAL Academy Training Program – Foundations and Applications of Data Science
- ♦ Workshop: AI and Indigenous Knowledge – Bridging Tradition and Technology
- ♦ Research Paper: "E-Commerce Sales Forecasting Using Machine Learning Algorithm" – International Conference
- ♦ Training: Enhancing Soft Skills & Personality | Big Data Computing
